

The workflow

FRAGMENTED CURRENT STATE

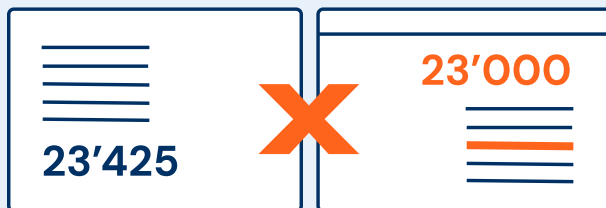

Manual workflows = effort

Isolated steps in Excel and emails lead to time-consuming manual data transfer.

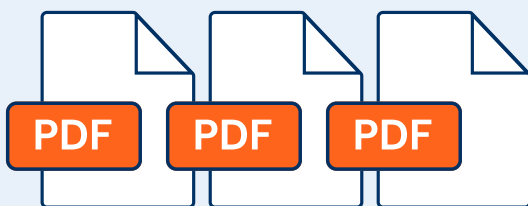

High risk of errors

Copy-and-paste processes between source systems and static PDFs cause dangerous inconsistencies.

Static PDF documents

PDF-only reports no longer meet requirements for mobile use and interactivity.

Real-time reporting

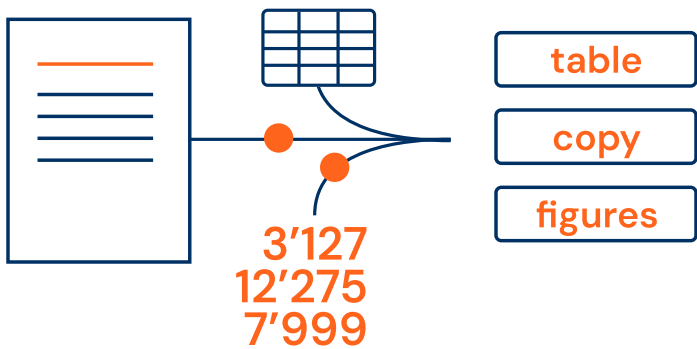

Single Source of Truth

Direct integration with Workiva, Office or Adobe as the single validated data source.

Intelligent control centre

L-Sync checks, maps and transforms content automatically — with no manual intermediate steps.

Full CI compliance

Automated branding ensures that design requirements are strictly adhered to across all channels.

One Source. No Deviation. Full Control

DIGITAL REPORTING

Multi-channel publication

Simultaneous delivery as a responsive website, mobile app, microsite and classic PDF.

Approved = published

Guaranteed consistency between approved source data and final publications — with no deviation.

High-Speed Publishing

Go-live of the digital reports within just 5 to 10 minutes.
